-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This is the third office action for application number 10/637,888, Industrial Tank Support, filed on August 11, 2003.

Drawings

The drawings were received on December 3, 2004. These drawings are not approved.

The drawings are objected to because reference character "32" is not in Fig. 8 as suggested by the specification on page 4, line 26; in Fig. 8, bottom left, reference character "40" appears to be incorrect and should be --44--; and in Fig. 3 reference character "62" appears to be referring to the wrong element. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and

Art Unit: 3632

informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "66" has been used to designate both a stand (Fig. 1) and an edge (Fig. 2); reference character "68" has been used to designate both a supporting surface (Fig. 3) and a mounting band (Fig. 1); and reference character "70" has been used to designate both an annular receiving surface (Figs. 6-8) and bolts (Fig. 1). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Cancellation of Claims

Claims 1 and 23 have been canceled per applicant's request.

Claim Objections

Claim 22 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Currently, claim 22 depends from canceled claim 1.

Claim Rejections - 35 USC § 112

Claims 14, 19-21, and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 recites the limitation "the sidewall" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 19 recites the limitation "the top end" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 21 recites the limitation "the bottom end" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 26 recites the phrase "said there being" in line 1. It is not understood as to what is meant by this phrase.

Allowable Subject Matter

Claims 2-13, 16-18, 22 (as it is assumed to be dependent on claim 24), 24, and 25 are allowed.

Claims 14, 19-21, and 26 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the primary reasons for the indication of the allowable subject matter in this application is the limitation of the tank support including first and second tank-supporting structures being asymmetrical in vertical cross-section and being operable to alternately support first and second tanks above a supporting surface, wherein the first and second tanks have respective, different, first and second bottom surfaces, now essentially included in independent claims 24 and 25 and in combination with the other elements recited in the claims respectively. These combinations of limitations are not found in the prior art of record.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anita M. King whose telephone number is (571) 272-6817. The examiner can normally be reached on Monday-Friday.
